Our No. 1 sections are made of the choicest white basswood lumber, and are perfect in finish, and free from defects. They are not all snow white, but vary from that to a light cream color. Choice honey shows off to best advantage in a section not to white, as it is the honey rather than the wood that the consumer looks at. Price: Per 100, 70c; 500, \$3; 1000, \$5.90.

Our No. 2 sections selected from our best grade sell at a price considerably less than our No. 1, and are correspondingly lower in quality. Most of them are equal to No. 1, except in color, some have dark spots, saw marks, or other blemishes which exclude them from No. 1 grade. Price: Per 100, 65c; 500 \$2.85; 1000, \$5.50.

Six section holders, with separators, one follower and wedge, are put in each super, and each holder holds four one-pound honey boxes. “Clipper” Grain and Seed Cleaner

We have recently added a large power cleaner and are now prepared to clean all kinds of seed grain, clover seeds, grass seeds, vetch seeds, etc.

We can clean far better than with a hand cleaner, as the fan runs more even and we can better regulate the wind blast.

Our machine is equipped with air controller, traveling brushes, and a full assortment of screens, and does fine work.

Do not sow foul seeds, but reclean your grain and all seeds, and have your land produce a good crop instead of a lot of foul weeds. Our charges are reasonable and we guarantee our work.

We are also local agents for this well known cleaner, and will be glad to show you what they will do at any time.
